DarkDemin wrote on Mon, 03 July 2006 10:08 You do realize that is going to be about a \$300 keyboard right?

Decent keyboard's Become comfortable keyboards. the price is for the software and all the OLED's in each key. Still, im getting it no matter how much it costs, plus, its about £200 (note the pound sign) which is easy for me to get and the way everyone else talks about money, shouldnt be a prob.
