ROFL how did our server get in to this discussion.

mrpirate, what is it that upsets you so much?, maybe one day you will manage to say something for a purpose rather than upholding your reputation for being an ass.

I won't try and claim that BBF has the best players in renegade or that we can kick x's ass.

We play, we have fun, we play some cw's/fw's and we pay to provide servers for you to play on, non00bs and lots of other people do the same - if you don't like a server, don't play on it, simple - just don't go bitching because THEIR server isn't run as YOU want it.
