Why do we even say it, though? I mean, what does it prove? That you're not happy about dying? I'm pretty sure nobody is, so why do we feel that we should make it publically known? I mean, I do it all the time, too. I always type "fuck" when I die, but getting past the fact that we do it... WHY do we do it? It wastes more time and energy, does it not? It's still not going to stop me from doing it, but it's just an interesting question to think about.
