mision08 wrote on Fri, 07 July 2006 16:20l concur with Light, works fine for me. Not that I need one behind a router.

I passed every test without my firewall running

Goztow, I don't think Sygate works in DOS mode. You should invest in a fancy new OS like Win95. Maybe a mouse and a speaker. I have an OS that uses the NT Kernel. Makes it difficult for meer mortals to corrupt. he he

Smartguy, I had Sygate almost two years on my legally bought Windows. I know what I'm talking about .
