How is that hypocrisy? Do you even know what you're saying? You're accusing me of being false in my beliefs because I'm saying that renevo is dead. Well, considering your track record, it is. Back at the time where we "signed on" (no code, though, since you had nothing and probably still don't) you had at least some kind of activity going on.

APB existed because of Lefthanded, myself, and Agent Gibson. Dante had very little to do with it besides helping with two releases and quitting shortly thereafter.

So when you decide to finish it, if ever, please... By all means, let us know!
