You asked for SP buildings, i tell you were they are. If their is a problem, it's not my problem. Maybe make the map bigger to compensate?

The Mutant Lab Building? The one from M08? That's built into the map, it's not aggregated, the only building controllers it contains are the ones for the two MCT's on the -1 floor.

(PS. Sorry if i caused any offence or anger towards anyone. I did'nt mean it.)
