Dave Anderson wrote on Sat, 22 July 2006 16:10ATI has a bad history of lame drivers. And the latest series of Nvidia cards smoke the latest series of ATI cards.

How do they own ATI? If you are talking about nvidias SLI, have you heard of ATI's crossfire?

Anyway i dont know what to think of this, but possibly that ATI cards may only be made for AMD's, which is ok at the moment bcoz i would go for the both of them.
But would other people like this?
