Ok here is the problem...

I went and bought Command & Conquer The First Decade and i wanted to play on renegade so I installed it and then as told by my freinds i got renguard and installed it properly. Finally once everything was installed i went on to try multiplayer once i had logged in it said.....please install this game again without a non shared cd key.

then i clicked ok and no servers were coming up.

could someone please help me. A.S.A.P

ThankYou
