The Formula Evolution mod is basically a racing mod for Renegade.

A few models have already been made by Paradox but that's all.
What the team needs now are:

1. Script Writers
 2. Level Designers
 3. More Texture Artists
 4. Beta Testers (As many as possible but first three must be fulfilled)
 5. Many many suggestions on gameplay
- Level Designers must have an ability to make racing maps (workable ones)
Anyone who applies MUST NOT be busy with another mod (especially Reborn) at the moment

Script that we need now is:

1. Script that starts the match only when the max players is reached.

Help and thanks in advance.
