I'm currently trying to figure out how to do 2 different types.
One that will sound an alarm When poked and shut off when poked again by a team, And one that will open a gate on poke, then close once poked again.

For the alarm, I tried JFW_Poke_Play_3D_Sound, Which initialy worked, But when I poked it again, it would not shut off, instead it created another alarm sound.

Does anyone know how to do proper switches for eather of these?

Try using JFW_Poke_Play_2D_Sound_Timer`? maybe that work O.O
