help-linux wrote on Sat, 29 July 2006 18:23i admit, i don't like VB at all. a tried to learn it, but in so used to the syntax of perl, php, c++, javascript, python that i cannot learn it. i have tryed many times.

the bot that i am making has come to a halt because i cannot get scripts.dll to WORK! no one will help me with it. im going to move over to cygwin if it has the windows.h header.

Do you have ICQ or MSN ? then msg me and I'll help you
