[Slightly off topic]

"mrpirate" I was reading your forum, Pirate (yes I'm bored), and I noticed eskamo300 wanted to join PA. Just so you know he was cheating in a server I was in the other day; he was killing everyone with his Repair Gun. He also thought I was cheating after I team-killed him. My advice would be to not allow someone so thoroughly retarded into your clan. Wow, I never really expected to see this... This guy used to be a regular on the BB server and now this. It's quite a shame
