Hi all, I have some problem to start my game. I don't have any illegal copies of the game (I have buy it). For the installation, there is no problems. When I want to go play online with Westwood Online, a message says me that I have an older version of the game and I have to update it. When I press "No", the game return to the main menu. When I press "Yes", the game downloads the software update. After, the game close and return to the Windows XP Pro desktop. A window appears and it's writed "Updating..." for 1:30 hours that I leave it here. I try to reinstall the game and my operanding system (Windows XP Professional) and the problems is there.

I NEED HELP PLEASE !!!
