They can go and sit down in like the GDI barracks and just type to eachother. No punching, no shooting, least of all NO SWEARING. They can go on tour rides in APCs and perhaps even share humvees and buggies together. They could maybe walk down the beach on islands and get a cool tan. I mean seriously WOULDN'T IT BE SO MUCH FUN?! Who needs violence in video games? (physical/verbal) WE CAN ALL JUST MOSEY ALONG AND HAVE A WONDERFUL TIME HOLDING HANDS. Because VIOLENCE people is BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD BAD. I think every no-swearing server should put this mod in and it will bring peace.

lol.

No swearing in a violent game.

It's like saying, here have a gun, but you can't have bullets.

Or..lets have sex, but we can't touch.

IT'S RETARDED. Fair enough if the game was Pokemon or something, but its not, its Renegade, you go round shooting the fuck out of each other for fun.
