---

im using a class, (<http://www.adp-gmbh.ch/win/misc/sockets.html>)

it workes fine with tcp but when i change

```
// UDP: use SOCK_DGRAM instead of SOCK_STREAM
s_ = socket(AF_INET,SOCK_STREAM,0);
```

to this:

```
// UDP: use SOCK_DGRAM instead of SOCK_STREAM
s_ = socket(AF_INET,SOCK_DGRAM,0);
```

it doesn't make a difference, i can still telnet.
