warranto wrote on Sun, 06 August 2006 17:36MaidenTy1 wrote on Sun, 06 August 2006 05:27I also infer that "module" and "nodule" are both supposed to represent the same word?

nod-ule (P) Pronunciation Key (njl)

n.

Mineralogy. A small rounded lump of a mineral or mixture of minerals, usually harder than the surrounding rock or sediment.

Read what he said; he wasn't pointing out a typo.

Tiberium Nodule, and then Pre-Module. Is it a Tiberium Module, or is it Pre-Nodule? Or did they purposely swap the two similar words?
