I did see a person using at least a part of that cheat. Thought he was on the NOD team. I believe that there were 2-4 players in the whole game, this one guy kept flame rushing over and over, I had an Orca to fend his rushes off, as his Flamer's health came close to 50% percent or less, he would just BRIEFLY jump out of his Flamer and repair it in no time at all. Eventually I got pissed and just left.....FREAKEN BASTARD
