No, I'm pretty sure you wouldn't. In fact, I know you wouldn't.

edit: Just to give a little insight. Some of them played over 1000s of clanwars of renegade, while some "clans" on renegade hardly rack up 10. I've probably played over 200 myself. Really the experience of knowing what to do comes from playing so much clanwars. I mean would you know what to buy on field? Etc.
