Well ive got a problem with RenegadeTool2 loading correctly.  
I gotten this problem before but i forgot what I did to fix it.  
I jsut redownloaded it and reinstalled it like 3 times.

Downloaded from: <http://www.cncnz.com/files/renegade/utills.shtml>

Anyways What my problem is that nothing loads when the program itself loads. I cant edit anything since its not there. Notice the [+] next to most of the things on my first SS. When I click on some that do have theres no files in it.
