Yeah, but what about the ending videos for Tiberian Sun aswell? When GDI wins (which the storyline should be going by, seeing as the Nod ending doesn't happen as far as C&C 3 goes) then Kane is impaled by some spear thing by McNeil, which kills him. See for yourself:

Here's the Nod ending too, as a bonus:

What interests me most about the Nod ending, is that Kane seems to have supernatural powers. He disapears as the missile is launched. Hmm...
