Terminator 101I don't think that it will ever die . It is the best game that westwood ever made (I have not played generals yet so it myght change). Did half life ever die? NO. and how old is it? About 5 or 6 years (I guess that the only reason that it did not die was that Counter strike was introduced ).

Westwood didn't make Generals... ea did... I don't remember seeing Westwood's name on it anywhere, as far as I remember... could be wrong, didn't play it all that much.
