again, it's a joke. lighten up!

there have been french jokes around for longer than any of us have been alive! most of the jokes refer to how easy it is to conquer france.

as for the word caucasian, it is a term (scientific i believe) to describe white people. it is no more offensive than the terms negroid or mongloid or puppy.

someday, you'll realize that there are many more important things in life besides trying to piss on people's jokes.
