I'm talking about the current state of XWIS. I'd rather use GameSpy, TASE, or just direct connect to servers that I know instead of crashing out of game every 10 minutes. Probably the only enjoyable game that can be played in 10 minutes is a game of sniping.. and that's only if you like to snipe, which a lot of people don't.

Don't think I'm blaming this on Strike-Team though.. I'm not that retarded to not understand the problem but I was under the impression that when XWIS first went up that they were hosting the servers.
