
Subject: How much longer will Renegade survive?

In actual fact it is us, the Renegade community who decide how much longer it will last. If we all quit today it will surely die fast. If we carry on supporting it then it will have a better chance of lasting a while longer. Electronic Arts have nothing to do with the life of the game really except Westwood Online. The community itself are the ones who have kept it alive. Without the community we have here it would be gone by now.
