guys... i have a secret, i am the one you call god. lol.
prove i am not

"had god ever put a Jaguar XJR in my driveway? NO!
has god ever give my enemys the hurpies? NO!" - little nicky.

i like these sort of threads, it is interesting to see poeple's stupid arguments on somthing that doesn't exist.

i do beleve in after life, but not as poeple imagine it. i don't think you die and then thats it. because i belive that there is a cosmos(outside our universe) that there are infinite universes being created and destroyed. when one of those universes are just right, your life startes again.
