Im gonna make a Mod for Renegade called BF 1942 Battlefield 1942.

But i need help.

If you want prove that i can do stuff i will take pic's of what i got now.

The following is what i need help with.
models
unwraps
texturing
mapping
scripting
getting everything ingame
changing the GUI
finishing touches
routing out bugs
alpha testing
beta testing
public release
patches (if necessary)

I can do the following but still need help with it.
Mapping,Model's,Texturing,Building's

And learning more.
