trooprm02 wrote on Thu, 31 August 2006 08:44a good alternative would be to allow a member of this community become the official manager for renegade for xwis (the messenger between them and us), and would look over everything that would have to do with this community (ie:crimson )

BHS is already in a partnership with Strike Team with the approval and cooperation of EA to basically do that. However, there are specific limitations to the agreement that make it so we can't really help in a downtime issue.
