Nightma12 wrote on Fri, 01 September 2006 09:53l do not reccommend using pinfo as there is a bug where it wont show all the players

EDIT: you may also wish to include this with your bot: [www.aohost.co.uk/ssaow.zip](http://www.aohost.co.uk/ssaow.zip)

its SSAOW 1.5 upgraded to scripts.dll 2.9.2, which has all those console commands on it  
Thanks!!! i have been waiting for weeks for a version to comeout with the latest scripts! thanks!

also i am using the fact that pinfo output infomation on all the players to my advantage. if i want a specific player the bot runs through all the lines untill the correct player name or id is found then it puts all the infomation into a struct.

and oh yeah, this is bot a bug that is why why has "Start PINFO output" and "End PINFO output"

xptek wrote on Fri, 01 September 2006 03:46l'd suggest offering a standalone version as well. I hate having to run installers on my servers.

this can be easily done.
