Crimson wrote on Fri, 01 September 2006 15:39 Yeah, I can't make myself believe in something when all logic in my brain tells me otherwise. :\

Only because it's convenient (and yes, for the majority of people that applies to BOTH sides of the arguemnt).

I say this based on your over-all argument regarding the "invisible friend" example.

Of course, that would then apply to anything you had no physical proof on. And no, I'm not going back to that whole current science examples, I mean things of a lesser physical entity.
