Notice how I said could; what I said after that was just an example of what it could prove. I know, it doesn't look like that, but that's what I meant.

How the ladder system would work needs to be delcared before we can aruge over stuff like this. Yeah.. Fooling around on it is a bad habit, and I was just pointing out what would give you a bad rank using the old ladder, though hopefully the new ladder will be better. And the part about lower-ranked people having bad playing habits was a joke about how they should go outside once in a while. I was just trying to say, don't let people put you down if you have a higher rank than them, because with the old ladder all you had to do was join a huge server and hold down the left mouse button in an mrl/arty to get a good rank.
