Okay, I am trying to make a b-ball court for renny, so here I go-
I have located the too files I need-(lv8_bbcrd.dds and lv8bkbrd.dds), and I am trying to make them go onto a plain and a box which is attached to a cylinder, which is attached to the plain. I looked up in the tutorials thread, but I'm not quite sure what I am doing. Any help is appreciated.
