Was going thro my server.ini etc files for my aow server, and I wanted to know whe I could enable recommendations for highest K/D Ratio, and maybe others if I later felt like adding them?

Right now, BR only recs mvp (most points), and most kills

What about rec'ing players for destroying a single building (ie:ob), instead of just 1 rec for destroying 2 (ie:ob and hon)?

And if ya destroy the other, you get that rec too...

Its just logical to me
