(i'm not good at explaining it, since i don't type chinese usually, since of my...not so leet skills in typing chinese)

EDIT: and oh yeah, that's the english version of renegade, but bought at hong kong

Last picture...."type something and press space and it'll turn to something else". Lol!

Depends, might turn in to a AMD Althon- [/spoliers]

...erm, never mind.

actually, i don't know much about japanese input, but i had that japanese ime something installed (don't ask me why and how it got in)
