I never tire of hearing this bullshit from you, and the fact you simply do not realise how horribly flawed it is.

Shall I copy-paste our recent email conversation about your auto ladder project? You said you'd love my help but didn't want to involve "the clanwars.cc people" on the grounds that they're all immature.

Now, I challenged you to explain exactly who you mean by this - you couldn't think of a response, but I'll happily give you another go. It can't be the admins in charge of Renegade, because we administrate the Renegade league in a mature and professional manner. It can't be any specific player because why would you need their involvement?

So what did your statement mean?

If your entire anti-CW argument is based on the fact that there is a minority of idiots who use it, then by the same "logic" Renguard, XWIS, Gamespy, Renegadeforums.com and every single public server is equally guilty.

Thank god. You've only neglected it for ten months and counting, so thank god. You never gave a shit about providing clan support to Renegade until I posted that thread on XWIS. Go ahead and pretend that's untrue, I dare you. Considering how often you've publicly stated that clans and a clan league are a waste of time, etc. It's plain to me that you couldn't give two hoots whether there's a functional league, you just can't handle Clanwars.cc getting rightful credit for something.

On my watch as admin/overseer of the renegade league, there has never been a single 24-hour stretch where either myself or a fellow admin wasn't there to add peoples' games, answer questions, etc. Compare that to your ten-month stretch of utter neglect.

Fine by me. Way to dodge my earlier statement directed at you, by the way. Reminds me of Snippler or whatever the hell his/her name was, because he/she still hasn't had the common decency to admit he/she was absolutely dead wrong about every feeble point he/she attempted to make.
