Quote: You never gave a shit about providing clan support to Renegade until I posted that thread on XWIS. Go ahead and pretend that's untrue, I dare you. Considering how often you've publicly stated that clans and a clan league are a waste of time, etc. It's plain to me that you couldn't give two hoots whether there's a functional league, you just can't handle Clanwars.cc getting rightful credit for something.

^^

I challenge Crimson to refute this. The plain fact is making a clan ladder didn't even enter her mind until I made a thread on XWIS (who have made no efforts to create a Renegade clan ladder either) suggesting an endorsement for the Clanwars.cc ladder which was already in existence, seeing as how nobody else could be bothered to do it. Crimson tried quite surprisingly hard to stop this, although failed... mainly due to the fact her "arguments" were complete garbage. I think it was about a week later that she suddenly announced that she's always wanted to provide clan support to Renegade and is gonna fix up a new clan ladder, DESPITE her constant earlier statements that clans and a clan league are a waste of time.

She didn't give a shit about the ten months of utter negligence Renegade's clan support status has had from those in authority. Yet when it seemed likely that a community she still has an irrational hatred of might get this honour, suddenly it's top of her agenda. I can put it no plainer than by saying she doesn't care about providing Renegade's clan support - she simply wants to take something away from Clanwars.cc.
