Crimson wrote on Thu, 14 September 2006 03:33 Sorry, but I can't say one way or another about you hacking or not hacking the forums until I can locate my logs from that time and figure out what you said to make me believe it was you.
Then I'll refresh your memory.

At the time, I was on reasonably good terms with three parties: yourself, Olddust, and Jschultz. (to elaborate: co-owner of NoN00bs with Olddust, server mod at N00bstories and a long-time n00bstory writer, and just a general buddy of Jschultz) Funny how things change, eh?

Jschultz rented a server from Olddust and it was called N00bstations. It became rather popular and you became somehow affronted at its similar name to "N00bstories". Kholdstare decided to ddos N00bstations repeatedly. At roughly the same time you demanded their change the name of their community. Timing, for all I know, could have been a complete coincidence so I'll not make any accusations in your direction about the ddos attacks.

Me being in the middle of it and having a measure of respect for all three parties (not Kholdstare, obviously) didn't really want there to be a big ugly ddos-war, so I decided to try to negotiate some kind of peaceful solution with myself as a kind of mediator. I went to Olddust first: he said fine. I went to Jschultz: he said fine. I went to you, and your response was de-modding me from N00bstories (hardly a big deal since I rarely if ever played in public servers at the time) and telling Jschultz that if you didn't get your way, you'd publicise the accusation that NoN00bs was responsible for "Renguard's recent downtime". Completely fabricated, of course, and you knew it. That wouldn't stop many people believing it if you said it was true, though, and I think you knew that too.

I thought: fuck this. Olddust is willing to play nice, Jschultz is willing to play nice, you aren't. I said goodbye to N00bstories and said something along the lines of "it's been fun, cya". I forget my exact wording.

At the same time (and believe it or not, this was a COMPLETE coincidence) your forums got hacked. I pointed this out to you before I left the IRC conversation. Two entirely unrelated statements.

Your forums getting hacked was not me, nor done at my command, nor anything to do with me at all. I said so at the time.

Crimson wrote on Thu, 14 September 2006 03:33 Maybe after I'm done waxing Blazer's ass crack I will dig them up and maybe "admit that I may have been mistaken". However, I'm pretty no one but you gives a shit.

Ah. So you need not withdraw a false accusation on the grounds that "you're the only one who gives a shit".

I'll be honest: it really means nothing to me that I was incorrectly accused of this. In fact most of CW thought it was hilarious, myself included. I merely bring it up as a parallel.

Crimson wrote on Thu, 14 September 2006 03:33 And given that I don't know much about or participate in the CW site after a horrendous situation with the owners and creators of the site (at the time? I guess)

ah... you mean when WL guys photoshopped screenshots wrongly implicating Oompah (the creator of Clanwars.cc) of "fixing" [CW] and [WL]'s ladder points? Or perhaps when, again, WL guys decided that a good use of admin powers on these forums would be to steal [CW] members' accounts and use them for evil purposes?

Tell me, what's the worst anyone from [CW] ever did to you? Call you fat? It doesn't tip the scale.

Crimson wrote on Thu, 14 September 2006 03:33 I don't know who currently owns or runs it now and given your bubbly personality and childish insults, I'm also not really chomping at the bit and frantically opening a new tab to try and find out who is under the secret identities of "Renegade Admin 1" and "Renegade Admin 493"... if you're trying to keep their identities anonymous, then how do you expect me to figure out who the hell is in charge anyway?

Does it matter who the admins are? I'll answer it for you: if they're doing a good job, no. They are doing a good job. If you want proof, make an anonymous account on Smak forums, say you're a new player thinking of joining the league but want to know if it's run maturely, and ask the community what they think of the admins.

And *I* am currently in charge of it. Now, you can say whatever you like about me personally, but I run the league with the utmost professionalism.
