I was on Nod, on Under and my team was getting kicked around. After many tries with my stealth tank, I gave up and bought a SBH. I came out of the tunnel and killed an engineer. I then proceeded up the hill, but I was running backward, so...I never did see that Mammoth.

I fell in the PP funnel and had to C4 myself.

Got run over by Chinooks, Apaches, and Orcas.

I also got sniped by a pistol once.
