considering I ran n00bstations, who the hell is Olddust? Im assuming iccy.

The attacks that happend towards n00bstations, were never directly "tied" to crimson. Although we did know her community members, or some of themwere tied to it, from logs that were given to us from members of the n00bstories community.

Once renguard was taken down by the person that did it, and we spoke with crimson for her to put the word out to leave n00bstations alone, the attacks stopped. But this is all in the past, so why is it being drug up now?

The attacks against n00bstations were supposedly done because n00bstations was to close of a name to n00bstories, and certain people felt n00bstations was taking n00bstories traffic.

What Spooky has to do with this is beyond me, to my knowledge he wasnt involved in it, unless iccy brought him into it, I dont recall speaking with him, but this was quite some time ago, so my memory of who all was involved may be a little foggy.
