nel_kuan wrote on Mon, 25 September 2006 11:41i don't know why people hasnt found dis out...
The beacon can be seen on ur radar... If ur team plants a fake beacon, the star will be leading u to ur base but if it is a real one the star will b leading u to de enemy one
Only if u use radar hack (or the server allows you to see both sides on the radar)...

Fake beacons do work sometimes. Combining a fake with a real nuke also does the trick.
