Alex wrote on Wed, 27 September 2006 18:52 We actually bought a server off Nightma12, And what I said is true.

When I need support for the server, Nightma give's it to you instantly.

I never have lag on the server, Mabey it's because I live where the server is located but meh.

And creepiner the owner of our community hasn't complained about lag.

And we did get what we paid for, A lag free server with any Regulation bot, And any choice of server applications (WOLspy and so on)

I think Nightma's Hosting is Amazing, Best around if you ask me.

Amen!
