Looks awesome, and that is will have good game-play

But just curious, on the buggy how many people can get in 2 or 3? Will you see yourself sitting in the seat as well as your teammates? and when i say 3 people i mean 1 driver, 1 passenger, and 1 guy standing up handling the gun (don't know if there is enough room on the back of buggy by looking at the pic, but it looks like it)
