icedog90 wrote on Mon, 02 October 2006 19:20 Where did the emulators thing come from? Talk about not knowing what the crap you're saying. The only time you'd use an emulator is if you wanted to try Linux gaming. There are so many open-source programs and great equivalents that are all entirely free (that are for Linux). A lot of them I like much more than the equivalents I've seen on Windows.

Linux is a whole different world to discover.

Indeed, it's just like going to Haiti.
