crazzzyasssand if u take wat i wrote to any english prof in THIS country none of them will find any errors u both need to pick up a book and read it and read it right cuz u read once and came up wit the idea that the word English was a decribing word which sorry makes u look like a moron in it self that u had the book in ur hand and fuckin read it totaly wrong

Remember, it's "you", not "u".

Remember, it's "what", not "wat".

Remember, it's "I", not "i".

Remember, it's "professor", not "prof".

Remember, it's "because", not "cuz".

Remember, it's "describing", not "decribing".

Remember, it's "your", not "ur".

Remember, it's "fucking", not "fuckin".

Remember, it's "totally", not "totaly".

Remember, punctuation makes your work legible.

Remember, starting a sentence with "and" (non-capitalized) is incorrect.

Remember, emphasizing a word with bold, italics, underlining, or capitalization is not proper grammar.

Remember, ad hominem is not an intelligent way to communicate.

Remember, redundancy is not palatable.
