I thought I'd share this with you guys/gals. It's a streaming radio service, no ads and you pick the tracks you wanna listen to.

It's like Pandora, only better in my opinion. You can make playlists of the music you like, 45 tracks from at least 15 different artists and it plays them on shuffle, so it's not on-demand radio, but it's still great.

Feel free to check out my two playlists so far:
