I was wonderin if there was a landmine script.... i know theres a scriptzone in commando for landmine area that has a script, but when i put the scripts folder in the pkg and look for it i can never find it, is it there, i duno. Anyways, is there anyway to make like a Land Mine Script Zone ?

Another thing i was wonderin was would it be possible to make it so everyone was on the same team, like everyone join gdi, and have the game start after someone else joins?
