If i generally dont have a clue then black hand studios/goztow havent a clue also.

And thats the kicker ---I/We/They do have a clue.

he posted that link at first, as we didn't know who you were accusing, and were confused that he was running renguard.

so he posted a link that showed you that rg can be bypassed, and was giving you the info.

you reposting that link doesn't say that dan cheated, it just makes you look like a damn fool for reposting a link which was aimed at you saying that rg could be bypassed.

you don't have a clue. bhs doe, goztow does, but you don't.
