"Yeah."

"You sir, are an idiot." Seems to be more of an Asswiser Renforums quote, but i thought i would include it here anyway

"Fucktard" or "Fuckwit" With or without a period here, Asswiser oftenly use these insults.

"O RLY" A very popular European quote, however an Asswiser will use this to try to make someone look stupid. They will most likely use this if his target is being serious with something. Turning to sarcasm can make someone look stupid, it can work, but its a terrible thing to do.

"Uhuh." This is a sign of ignorance, in an attempt to try to make his target look stupid.

"Er..."(Number of dots vary) This quote is not actually used against someone, its just a quote that Asswisers tend to use. not only Asswisers use this quote however.

"Heh." Sometimes "Huh."

Thanks you . These kind of posts will oftenly make an Asswiser angry, Bashing me will oftenly show anger, and sometimes not

Er... Ok, yeah. You Sir, are an idiot. You are a complete and utter fucktard. Heh.
