Crimson wrote on Fri, 20 October 2006 11:56LOL I never had withdrawals from not eating McD's burgers... I did have moderate withdrawal headaches from ceasing consuming NutraSweet aka Aspartame.

Strange, certain people in my... family, have neurological damage caused by phenylalanine and aspartame. Some kind of degeneration of nerve groupings, or something stupid like that. Is that normal?

PS: The withdrawal thing was something my biology teachers mentioned, so it probably isn't true.
