Merovingian wrote on Fri, 20 October 2006 12:27: Guess what everyone?

3D Studio Max 9 Trial is out!!!! and it's great!

Renders take seconds not minutes,
The viewport renders are about 300 fps, not 60 fps,
Faster load time.

It can be found here.

DOH!!! That's great, just after I finally scraped up enough cash to get a copy of Back Burner for Irix, so I could render on my SGI Octane box!!!!!! Damn it!
