ohmybadSTOP FLAMING when someone posts a new MOD you dont just flame them and tell them it sucks and they are "ruining the community with their models" he posted the thread so he can get a honest opinion on his mod.

Did it ever occur to you that this is exactly what Ack was doing... giving him his honest opinion on his mod. Just because no one else seems to like Ack or what he says, doesn't mean that it wasn't the truth, at least from Ack's eyes. There is an easy rule of thumb you can go by in this community... if Ack doesn't say anything about it, there is a good possibility that others might accually like it too... think about it.
